## Maharashtra The State

Agriculture is the mainstay of the state of Maharashtra. It is the main occupation of the people. Almost 82% of the rural population depends on agriculture for livelihood. The state experiences tropical conditions and rainfall is particularly concentrated to the Konkan and the hilly Sahyadri region. Maharashtra is the first state to adopt 'Dry Land Farming Technology' with the mission to help its farmers. Farmers are being trained on the new techniques for farming, pond irrigation, micro irrigation, inter-cropping, double cropping, etc., in addition to providing them with improved short duration yield seeds, fertilizers, pesticides etc. The state is also a pioneer in co-operative water user associations; it stands first in the country with more than 60% of the area under drip irrigation. Efficient management of rain water and soil conservation is done to boost agricultural production from dry lands.

Bringing Prosperity to the Farmers of Maharashtra

Both food crops and cash crops are grown in the state. The important cash crops are cotton, sugarcane, turmeric and vegetables. The main food crops includes mangoes, grapes, bananas, oranges, wheat, rice, jowar, bajra, and pulses. State is pioneer in onion production in the country. It is today emerging as an important horticultural State in the country. Different types of soil, diverse agro climatic conditions, adequate technical manpower, well developed communication facilities, increasing trend in drip irrigation, green house, use of cool chain facilities and vibrant farmer organisation offer wide opportunities to grow different horticultural crops in the State. Best quality grapes produced in the State are now exported to aother countries. Mango, particularly 'Alphanso', grown in Konkan, has already established name in the international market. The State has an area of 13.66 lakh hectares under various fruit crops like mango, banana, orange, grape, cashew nut, etc. Maharashtra is a major producer of floriculture products. The major traditional flowers grown in Maharashtra are rose, chrysanthemum, marigold, jasmine and tuberose. Whereas, gladioluses, aster, zinnia, Stacie, lilies, gerberas and carnations are grown among the non-traditional flowers. Maharashtra has emerged as a leading State for production, export and consumption of flowers in the country
